## OUR TRUSTED BRANDS

## OVER 100 YEARS OF BAKING HISTORY

**BakeMark** was founded during the Great Depression as a reseller of commodities in the Los Angeles market. During the 1940s, as World War II was ending, many bakers returning home started requesting pre-made mixes to boost efficiencies in their bakeries. These needs of the market are what launched **BakeMark** into manufacturing, and it successfully launched the first donut mix in 1946. Since those humble beginnings, **BakeMark** has continued to meet the needs of an ever-changing market by introducing a variety of mixes that have propelled bakeries into successful businesses.

## THE EMERGENCE OF THE DONUT CAPITAL

During the 1980s, California was quickly becoming the donut capital of the world. **BakeMark**, feeling the growth, soon outgrew their Long Beach location and moved to its current location, Pico Rivera. Also growing in recognition was the “pink box” and what it meant in an office break room around California. **BakeMark** was part of that history when a donut shop owner inquired on cheaper boxes. **BakeMark** was able to find pink cardboard stock and formed a 9 x 9 x 4 inch container with semicircle flaps to fold together. This made the perfect fit for a dozen donuts and would soon become synonymous with a box of donuts.

When it comes to the best donuts in the world, bakers trust the **BakeMark** line of brands for flavor, quality, variety and consistency. **BakeMark's** yeast raised donut mixes have delivered the most delectable and luscious donut experience for over 100 years. Our donut expertise will help you offer your customers the best flavor and volume with consistent results every time. From extended shelf-life to the highest quality mixes, the **BakeMark** product lines of yeast raised donut mixes offer you the perfect formula with a wide range of varieties to fit your bakery needs.
